

Advanced cable locator

CC840

Residential

Industrial

- ☐ Tracking and locating metal ducts
- ☐ Locating cable breaks or short circuits in the wall, ground, or under the floor
- ☐ Cable routing on the wall or under the floor
- ☐ Transmitter unit with selection of the output signal.
- ☐ Can be used on active or inactive circuits
- ☐ Find the Fuse and Safeguard
- ☐ Receiver sensitivity can be selected
- ☐ Auto Ranging
- ☐ Auto Power Off
- ☐ Backlight and Worklight

Advanced cable locator

SPECIFICATIONS		
TRANSMITTER		
External AC/DC Voltage identification	12-400V	
Output signal frequency	125kHz	
Minimum power current	Around 31mA	
Maximum power current	About 115mA	
Display function and bargraph	✓	
Safety rating	CAT III 300V	
RECEIVER		
Detection depth	Single-pole application	0 - 2 m
	Two-pole application	0 - 0.5 m
	Simple loop circuit:	about 2.5 m
OTHER FEATURES/FUNCTIONALITIES		
Adjustable receiver sensitivity	✓	
Backlight	✓	
Worklight	✓	
Sound & Light Indicators	✓	
Automatic Scale	✓	
Auto power off	✓	
Content	Transmitter, Receiver, User manual, Test Leads, Earth spike, Crocodiles (red and black), Pouch, 9V GL6F22A alkaline battery, 1.5V AAA alkaline batteries (6 pcs)
